1. An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to Applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

IN THE DRAWINGS:

See the attachment of Figure 1 wherein it has been amended by the Examiner, as "Prior Art".

IN THE CLAIMS:

Claim 11, line 2, change "an" to -- a residential or business -- and in line 11, change "capacitive" to -- band pass filter --.

Claim 17, line 1, after "A" insert -- residential or business -- and replace "load center" with -- electrical distribution panel -- and in lines 3 & 7, change "load center" with -- electrical distribution panel --.

In each of the Claims 18-23, line 1, change "load center" to -- electrical distribution panel --.

Claim 21, line 2, change "load center" to -- electrical distribution panel --.

Authorization for this Examiner's Amendment was given in a telephone interview with James J. Merrick on 11/25/03.

2. The following is an Examiner's Statement of Reasons for Allowance: Applicant's arguments of 11/10/03 have been considered and the arguments found on Page 10, of the Response, were considered to be very convincing. The arguments are drawn to the Abraham Reference

(5,625,863) and wherein the only disclosure/teaching of communication between phase lines or between "high potential lines" as required by the instant claim language is in a "general case" and those are taught as being "disposed outside of the residence". The instant claim language not only requires the transferring of signals across at least two high potential lines, but further requires the claimed combination to be within the residence i.e. Claim 11 requires "a residential or business electrical distribution panel" and Claim 17 requires "a residential or business multiphase electrical distribution panel" which has "a plurality of branch circuit breakers". It is therefore, the opinion of the Examiner that there does not appear to be strong motivation to combined the Prior Art of Record to achieve the claimed combinations of Independent Claims 11 and 17.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
